

Java Concurrency Lab Manual

Lab #6 – Working with Streams

Data Files

On the class web site, you have Postcodes.zip file, it contains over 2.5M records with the UK Postcode. Some of the postcodes are “live” and others are “terminated”.

Lab Assignment

Please create a report showing:

- The Country name
- The count of “live” postcodes for that country

Challenge:

There is an elevation csv file in the Notes folder, can you list all the Postcode in Wales over 50 meters in elevation?
